Certificate concerning Regulation (EC) No 1400/2002 – declaration to block exemption regulation

The Timken Company certifies that Timken branded bearings meet or exceed the quality requirements of article 1, sub sections 't' (original spare parts), or 'u' (spare parts of matching quality) of Block Exemption regulation EC 1400/2002.

Many components manufactured by The Timken Company are supplied as original equipment to vehicle manufacturers or their system suppliers. Timken branded products have been and will continue to be exceedingly high quality components.

This statement does not refer to or alter Timken's standard terms and conditions or any negotiated contract, including without limitation provisions concerning warranty or liability. The Timken Company reserves the right to amend this information without notice or warning.

Ends.
